## Gary's Top 10 Napa Valley Wines of 2023

NAPA VALLEY FEATURES  
DEC 14, 2023

NAPA VALLEY, Calif. — It's no secret that Gary's Wine & Marketplace are big fans of the wines of Napa Valley. This most-celebrated wine region in the United States has earned worldwide recognition for its prodigious cabernet sauvignon production. But the area's growing conditions are favorable for a wide range of grapes, from warm-weather varieties such as cabernet sauvignon, merlot and sauvignon blanc to cool-weather ones like chardonnay and pinot noir.

Gary Fisch, Gary's founder and CEO, is an expert on wines from Napa Valley and has built relationships with many Napa industry leaders from winery owners to acclaimed winemakers. These fruitful relationships have not only allowed Gary's Wine & Marketplace to offer guests some of the rarest of the rare Napa Valley wines but also continue to grow its Napa-driven Fisch Family wine collection, most notably the Go Figure Lot Series.

This year Fisch has selected 10 Napa Valley wines to highlight, which are listed below in alphabetical order. This diverse group of wines range from guest favorites to collectible treasures, and each is accompanied with notes from Fisch detailing why it was selected.

### Paula Kornell Blanc de Noir Méthode Champenoise 2017

\$49.99

It's so exciting to watch Kornell bring back to Napa Valley the same passion for bubbles that her dad had while also carrying on his legacy. This blanc de noir is so well done and is perfect for any occasion with flavors of crisp green apples, lemon zest, pears, peaches, freshly baked pastry and brioche. Almost solely made from pinot noir, there's a small dosage, which adds weight and depth to the palate. Cheers to you, Paula!
